Broadcast to All DPA Statewide Staff, All DPA State Associates,  
and DFYS Eligibility Staff from Systems Operations

### **Permanent Fund Dividend Alerts**

Systems Operations recently received files from the Department of Revenue (DOR) providing data on all Permanent Fund Dividends issued from the beginning of this PFD season through November 13, 2002. These files provide information on PFDs issued via direct deposit or warrants for this current year as well as some prior years.

We have scheduled several runs for the PFD alerts job over the next few days to bring us up to date. Because the PFD alerts job includes every weekly issuance including the PFD "main run", you will notice a larger amount than normal number of alerts on your caseload. Another impact of providing alerts on this number of PFD issuances is you may receive multiple alerts for individual clients. At this point in time, some people may have had their PFDs canceled and reissued or several garnishments. Each action will generate an alert. For example if an individual has had \$50 of their PFD garnished by one source, \$250 garnished by another source, and \$1000 garnished by a third source, and the remainder issued to them, you will receive 4 alerts and 4 separate interface records on the ININ screen, one for each PFD action.

After the job runs this weekend, we anticipate the number of PFD alerts generated by future jobs to decrease.

Please contact the EIS Help Desk if you have any questions on alerts generated by this job.
